

E50 EXOSOMES

AT HOME HAIR KIT INSTRUCTIONS

The E50H At Home Hair Kit is designed to provide 28 days of at home hair treatments.

The E50H At Home Hair Kit is designed to compliment hair treatments provided in clinic by your Healthcare Practitioner.

- 1) Open aluminium cap from E50H dry ampoule and remove the rubber stopper.
- 2) Mix the dry ampoule with the E50H solvent ampoule.
- 3) Once the solution is properly reconstituted transfer it into the foam applicator.
- 4) Using the foam applicator, apply a small amount of the solution topically to the desired scalp area.
- 5) Gently massage the solution into the scalp using your fingertips until fully absorbed.
- 6) The foam applicator (containing the reconstituted E50H) should be refrigerated after use.
- 7) Steps 4 & 5 should be repeated twice daily, morning and evening.
- 8) The first 2 vials (E50H dry ampoule and E50H solvent ampoule) should last for 2 weeks. Once used, please mix the second set of vials (E50H dry ampoule and E50H solvent ampoule) and repeat steps 4 & 5 twice a day for the next 14 days.
- 9) The At Home Hair Kit is designed to provide 28 days of at home hair treatments.
